Aihe: The Finnish criminal process has started 27.12.2021 and 19.1.2022 about the covid19-injections and frauds

Dear Dr. Fuellmich and team,

I have 18.1.2022 initiated the official criminal process about covid19-injections in the National Bureau of Investigation (KRP) in Finland. In this video You can see, how I am 19.1.2022 delivering the same report of an offence in paper form to KRP main office in Vantaa about genocide, frauds and crimes against humanity. I delivered the official demands together with my assistant and other plaintiffs. The initiating of the criminal case was also recorded as evidence (see the videos below). **More than 2000 Finnish people have already joined my demands to start the criminal investigation about the poisonous covid19-injections as genocide, frauds and crimes against humanity. The video has been viewed for more than 15.000 times in the network news and in the social net.**

I have also started another criminal case against the Finnish parliament members' decision 28.12.2021 were they intend to force mandatory covid19 injections to health care workers.

In this e-mail is attached my report of the offence (the 50 page text delivered 19.1.2022 to KRP).

I will send to you the English translation about the video, when the translation is finished next week.

I would like to help with Reiner`s work. Could you please contact me or send me information how I could join his lawyer team and do my share here in Finland to help to stop this genocide together with his lawyer team.
